

## BOIL WATER ALERT

**May 6, 2024 - EFFECTIVE IMMEDIATELY:** Due to a water main break on Edwards Street, near Degroff Street, the locations in the yellow shaded area are under a Boil Water Alert.

**Affected Boil Water Alert Area**

<u>400 Edwards</u>	<u>960 Degroff</u>
<u>405 Edwards</u>	<u>961 Degroff</u>
<u>440 Edwards</u>	<u>1000 Degroff</u>
<u>515 Edwards</u>	<u>1101 Degroff</u>
<u>520 Edwards</u>	
<u>524 Edwards</u>	
<u>525 Edwards</u>	

- **400, 405, 440, 515, 520, 524, and 525 Edwards Street**
- **960, 961, 1000, and 1101 Degroff Street**

An emergency water main repair on Edwards Street, near Degroff Street, has caused a temporary boil water advisory for the residents listed above. To isolate the repair area, Public Services needs to close other valves, which is why the affected area may seem broader than the actual repair site. We do our best to keep interruptions as limited as possible and sincerely apologize for any inconvenience. Please refer to the following schedule for information regarding the boil water advisory effective Monday, May 6, 2024.

Date	Impact to Residents
<p><b>MON 5/6/2024</b></p> <p>Water Main Repairs &amp; Boil Water Advisory</p>	<p><b>Residents are advised that all tap water used for consumption should be boiled until further notice.</b> We apologize for any inconvenience.</p> <p>The City of Grand Ledge will conduct tests to ensure that the water is safe for consumption. Two (2) consecutive water sampling tests are required by the Michigan Department of Environment, Great Lakes, and Energy (EGLE) 24 and 48 hours after the water pressure is restored. <b>The results of those tests are expected to be available on WEDNESDAY, MAY 8, 2024. Residents will be notified when the tests indicate that water is safe for consumption, or the advisory is extended.</b></p>

After repairs are complete, the City of Grand Ledge will conduct testing to ensure the water is safe for consumption. Two (2) consecutive water sampling tests are required by the Michigan Department of Environment, Great Lakes, and Energy (EGLE) 24 and 48 hours after the water pressure is restored.

**BOILING WATER BEFORE USE:** Bring tap water to a rolling boil, boil for one minute, and cool before using, or use bottled water. Boiled or bottled water should be used for drinking, making ice, washing dishes, brushing teeth, and preparing food until further notice. Please find additional information on safely consuming water during a boil water advisory at <https://www.cdc.gov/healthywater/emergency/drinking/drinking-water-advisories/boil-water-advisory.html>.

**DISCOLORATION:** When water service is restored, it is not uncommon to experience slight discoloration in the water coming out of your tap. It is caused by natural sediment and minerals that have come loose in pipes from pressure changes. The discoloration can be flushed by waiting approximately 30 minutes for crews to stop work, or move from the area, then run cold water in a sink or bathtub until clear.

**QUESTIONS OR CONCERNS:**

If you need additional support accessing safe water during this period, please do not hesitate to contact the Department of Public Services:

- Monday – Friday, 8:00 AM – 5:00 PM: 517-627-2144
- Weekend/Afterhours: 1- 888-220-9131
