

DATE: October 25, 2024

TO: Residents/Businesses in Noted Project Area

FROM: City of Grand Ledge, Public Services Department

RE: IMPORTANT NOTICE OF STREET RESURFACING PROJECT

Tuesday 10/29: Street Milling

Wednesday 10/30 & Thursday 10/31: Street Paving

- During the milling process, residents will still have access to their driveways, except for short periods of time (approximately 15-30 minutes) when milling occurs near the end of a driveway.
- Paving occurs one lane at a time. This means that while we cannot guarantee access to your home during paving, it is likely that residents are able to use at least one side of the street to access driveways.

On Tuesday, October 29, 2024, resurfacing in the noted area is tentatively scheduled to begin. The existing pavement will be milled to a depth of 1 ½". Residents within the project area will experience temporary driveway access interruptions once the milling begins. **If you live in the noted sections (highlighted area on the map) please avoid using your driveway or parking on the street during this time.** Once milling is complete, all driveways and the street will be accessible until paving begins.

OVER

During the milling process, residents will still have access to their driveways, except for short periods of time (approximately 15-30 minutes) when milling occurs near the end of a driveway. During the paving process, the noted sections will be closed to ALL traffic. Residents in the noted sections will not have access to their driveways.

How do I arrive at and leave my home during the paving process?

When paving occurs on each street, residents will NOT have access to their driveways. Please plan ahead and move your vehicle to one of the adjacent streets, or utilize the Log Jam parking lot, *before* 8:00am. After that time, any vehicle on your property cannot be moved until paving is complete and traffic is allowed on the street. Please note, paving occurs one lane at a time. This means that while we cannot guarantee access to your home during paving, it is likely that residents are able to use at least one side of the street to access driveways. **Please do not park on the street during the paving period.**

When is paving scheduled?

Milling is expected to take approximately two days. **Paving immediately follows milling and is tentatively scheduled to take place Wednesday, October 30 and Thursday, October 31, 2024.**

Why is the schedule 'tentative'?

Weather conditions, especially rain, can impact the start and/or completion of a street resurfacing project. The City will provide updates via, <https://www.cityofgrandledge.com/192/Construction-Project-Updates>.

The City advises all pedestrians and vehicles to use caution while navigating around construction. If you have questions about the project or have special needs we should be aware of, please contact the Public Services Department at 517-627-2144.
